Scott -

Great to hear from you. Don Maddux at EPA is currently working with our guy Wayne Nastri to get a meeting scheduled with "the Bob's", Nancy, and Gina McCarthy. A call to Don would be great. I also suggest you reach out to Palmer Hough on the other more technical briefing on the econ report.

The report is attached – it is currently embargoed so please do not share it far and wide. Public release is scheduled for next week or the following week.

Looking forward to seeing you next week.

Best -
SB

Subject: Commercial Fishermen at EPA next week

Hi Shoren,

Glad we got to catch up today and have good timing for the report TU is putting out and the fishermen's visit to DC next Mon – Wed. When you get a chance, please forward on a copy of the agenda and who will be in attendance.

As I mentioned on the phone, I'd like to seize the opportunity to engage the fishermen in the broader issue of streams and wetlands preservation. Again, good timing as we are putting out new messaging around upcoming guidance.
